

Store Audit Checklist

Are your auditors asking all the right questions?

We've spent a lot of time with our customers, helping them optimize their audit procedures to ensure they make the most of this important tool. While needs vary by retailer and store location, this checklist is a great way to make sure your audits are on the right track. For best results, visit each store to check compliance once or twice annually.

- ☐ Does the auditor's safe count agree with the store's count?
- ☐ Is the store accounting for all tenders and non-cash items each day?
- ☐ Is the store reviewing the prior day's override report for policy exceptions?
- ☐ Is the store maintaining a cashier spot-check log?
- ☐ Have problem cashiers been put on cash control?
- ☐ Are all store reports properly completed and stored according to corporate guidelines?
- ☐ Is the store complying with company deposit procedure limitations and guidelines?
- ☐ Are refunds properly tracked, recorded and reconciled to applicable operators?
- ☐ Is admittance to the office restricted?
- ☐ Are all office funds kept from customer and cashier view?
- ☐ Is a receipt obtained for all carrier pickups?
- ☐ Are all tills properly secured when not in use?
- ☐ Are tills transported in a secure manner?
- ☐ Are all unattended registers signed off?
